## Profile

---

**Front end web developer** - I am a web developer with a passion for science and an acute attention to detail. My previous experience in research, project management and regulatory affairs contributed to my love for exploring new topics and passion to learn programming languages. With more than five years of experience in the pharmaceutical and biotechnology industries, implementing global regulatory filing strategies I am ready to implement my newly earned knowledge in web development.

### Core skills in:

- **Languages:** CSS, HTML, JavaScript, Ruby, SQL
- **Frameworks:** Bootstrap, Express, Node, Rails, React
- **Libraries:** jQuery
- **Databases:** MongoDB, Mongoose, PostgreSQL, Sequelize
- **Design:** Web Fonts
- **Other:** AJAX, Data Structures, Git, Heroku, HTTP, RESTful Web Services
- **Project management/Coordination**
- **Communication/Collaboration**
- **Negotiation/Conflict resolution**
- **Organization/Planning/Prioritization**
- **Customer support/Relationship management**
- **Highly detail-oriented**

**Relevant Experience** - please review <https://github.com/ElenaOl>

---

**Card game - “the fool”** - creating front end game from scratch with best practice of HTML/CSS/JS.

**Family Grocery application** - implementing best practice of Node.js, express, sequelize

**Rainy Day** - implementing best practice of React, Node.js, mongoDB
